

## 491--Leftism\_Has\_Become\_a\_Religion-Transcript

but it's funny how the left thinks that

00:03

they get a dictate

00:04

how people are supposed to think and

00:06

feel and they tell people who are

00:08

mexican who feel free

00:09

that they have internalized racism one

00:12

of the stupidest things i've ever heard

00:14

we did another video in california

00:16

another california university

00:18

you know if you know anything about

00:19

california universities it doesn't go

00:21

too well when i go there

00:23

but we made a video it was for

00:25

thanksgiving i dressed up as a native

00:27

american

00:28

and we were going and giving out pumpkin

00:30

pie for thanksgiving and then

00:31

asking people what they were thankful

00:33

for you know it was a very heartfelt

00:34

video we had a black guy with me he was

00:36

a black pilgrim

00:40

and so we went there and we started

00:41

filming video and everything

00:43

and then didn't go as planned obviously

00:46

and some people came up to us some  
00:48  
leftists and they attacked us  
00:50  
they gave us death threats they yelled  
00:52  
at us said horrible racist things and  
00:53  
eventually they chased us off campus  
00:55  
tore off my clothes and that was the end  
00:57  
of that  
00:58  
and so after hearing about you know all  
01:00  
the horrible things that they said i was  
01:02  
racist and terrible and cultural  
01:03  
appropriation i decided to put their  
01:05  
ideas to the test right  
01:06  
if what maybe what they said is actually  
01:08  
true so i drove 900 miles  
01:10  
outside of los angeles to the navajo  
01:13  
indian reservation outside window rock  
01:15  
arizona to ask them what they thought  
01:17  
and not one of them was offended by the  
01:19  
washington redskins name  
01:21  
not one of them was offended by cultural  
01:23  
appropriation  
01:24  
and not one of them wanted other people  
01:26  
getting offended for them  
01:28  
on their behalf  
01:32  
it is cultural appreciation not  
01:35  
appropriation  
01:37

and you know these young people people

01:39

my age are going to university now and

01:41

they're coming out more stupid than when

01:42

they went in

01:46

they're professors i mean it's just i

01:47

mean i was there three years ago

01:49

at the university of colorado boulder as

01:51

a people's republic of boulder

01:54

but their professors are teaching them

01:56

how horrible america is

01:57

how terrible white people are and that

02:00

getting triggered is the norm and that

02:01

canceling people and shaming people for

02:03

a difference of opinion is how we should

02:04

all live our lives

02:07

so what does all this mean all these

02:09

white leftists getting offended

02:10

it really means that white leftists are

02:12

the most racist people in america

02:19

[Applause]

02:21

they think that their virtue signaling

02:22

antics are helping black people or

02:24

helping minorities when reality

02:26

it undermines them black people don't

02:28

want you to get offended for them

02:30

you're doing it for yourself and so that

02:32

other people around you will think that  
02:33  
you're woke  
02:35  
but let me tell you something white  
02:36  
leftist there is nothing woke  
02:39  
about saying you care about the feelings  
02:40  
imply to black people when you then turn  
02:42  
around and advocate for the same  
02:44  
programs and policies that have kept  
02:46  
black people down in america for decades  
02:54  
you know you think about something like  
02:55  
affirmative action right  
02:57  
affirmative action sounds great on paper  
02:59  
but it's racist all the way through  
03:01  
it basically says all black and hispanic  
03:03  
people you're not as smart as white  
03:05  
people so we need to give you a leg up  
03:07  
is that not racist  
03:10  
but you know why white people are doing  
03:12  
better in a lot of ways than black and  
03:14  
hispanic people in this country  
03:15  
because of the economic oppression that  
03:17  
the left has put on them for the last 60  
03:19  
years  
03:23  
and i want to talk about the reasoning  
03:24  
for this i think it's incredibly  
03:26  
important to get to the root of the  
03:27

problem and the root of the problem is  
03:29  
that leftism  
03:30  
and this type of culture has become a  
03:32  
religion and a cult in america  
03:36  
as america and the west have gone away  
03:38  
from judeo-christian values  
03:40  
they have needed something to replace  
03:41  
that and leftism  
03:43  
has been the answer black lives matter  
03:46  
has been that replacement for god  
03:50  
you have been nietzsche you guys know  
03:52  
nietzsche philosopher from the 1800 said  
03:55  
the famous line that said  
03:56  
god is dead people think this is a  
03:59  
celebratory thing  
04:00  
that god has dead but he said it as a  
04:01  
warning a warning that people would  
04:04  
still need some sort of meaning in their  
04:05  
lives and this is where leftism comes in  
04:08  
you think of the example of posting a  
04:10  
black square on instagram right  
04:12  
this is something that is one of their  
04:14  
tenets of their religion  
04:16  
but the funniest part about this is that  
04:18  
i can guarantee you that less than 0.1  
04:20  
percent of the people who actually  
04:22

posted a black square on their instagram  
04:24  
have ever done anything for black people  
04:29  
if you actually cared about black people  
04:32  
you'd be trying to get more police in  
04:33  
their communities  
04:34  
you'd be advocating for fatherhood in  
04:36  
these communities you'd be trying to get  
04:38  
rid of the welfare state you would try  
04:40  
to get rid of affirmative action  
04:42  
but they don't do that that's way too  
04:44  
difficult they just want to sit at home  
04:46  
on their butt  
04:47  
and post a black square on their  
04:48  
instagram so that all their friends will  
04:50  
think they care about black people in  
04:52  
reality they don't care at  
04:54  
all  
04:58  
you know when i was i was an atheist my  
05:01  
entire life  
05:02  
and now i'm a christian person which is  
05:04  
a wonderful thing  
05:07  
thank you thank you  
05:11  
and when i was coming to god and  
05:14  
becoming more religious  
05:16  
the the christians around me they  
05:17  
weren't shaming me for being an atheist  
05:19

they weren't telling me how terrible i  
05:21  
was they gave they were the most  
05:23  
heartwarming and welcoming people that  
05:25  
i've ever met in my life they love me  
05:26  
they wanted to  
05:27  
to bring me in this is not how the  
05:30  
religion of leftism works  
05:32  
it works on shame it works on guilt  
05:35  
they have tried to cancel people like me  
05:37  
they have tried to cancel people like  
05:38  
candace owens i'm sure they've tried to  
05:40  
cancel people in this room as well  
05:43  
but are you going to let the left  
05:45  
destroy you  
05:47  
no we are not i live in california  
05:52  
oh that's terrible it's on fire  
05:55  
the things you hear are true it is on  
05:57  
fire there's homeless people everywhere  
05:59  
poop high taxes  
06:00  
traffic i mean it's a terrible place to  
06:02  
live and i live there  
06:05  
but i love it i still love it a lot of  
06:06  
ways regardless what i'm trying to say  
06:08  
is that leftist policies have ruined  
06:11  
california  
06:13  
but that doesn't just happen overnight  
06:15

that has happened  
06:16  
because conservatives in california were  
06:18  
too weak to  
06:20  
stand up and do anything about what's  
06:22  
been happening to their state  
06:25  
that is what has happened to  
06:26  
conservatives for the last 30 years  
06:29  
with not doing enough do you want to see  
06:32  
your state turn into the next california  
06:36  
no i i can tell you you don't  
06:39  
from experience i can't tell you how  
06:43  
important it is that you guys stand up  
06:45  
for your beliefs  
06:46  
and stand up for what you believe in if  
06:49  
you don't  
06:50  
everything continues to get worse the  
06:51  
universities holly with the media  
06:54  
so if you're in your classroom and your  
06:56  
teacher asks you a question  
06:57  
that you want to act like a conservative  
06:59  
on or you want to say how you really  
07:01  
believe speak up  
07:03  
say it if you're at your work and they  
07:05  
ask you  
07:06  
say it if you don't it will continue to  
07:10  
get worse and this country will be truly  
07:12

lost  
07:15  
what defines every american is not the  
07:17  
color of their skin but the values that  
07:19  
they hold  
07:20  
and the left and their religion is  
07:22  
trying to destroy this country  
07:25  
and dismantle everything that we hold  
07:27  
dear  
07:28
